

New AVL clients fuel largest single order to date

Orders worth \$1.8M

Perth, Western Australia (28 Feb 2005) - Wavenet International Ltd (ASX: WAL) announced today it had received its single largest order to date. The order for BM3 wireless modems is from Velocita Wireless (formerly Cingular Wireless), the Mobitex Operator in the USA. Deliveries are scheduled for the 2005 financial year, with a significant portion of the order going to support the growing automatic vehicle location (AVL) market.

"We are extremely pleased by the ongoing business from Velocita Wireless, who we see as a key strategic partner in engaging wireless customers in the USA. This order underpins our status as one of the leading suppliers of wireless modems and provides a solid foundation for our expansion into other markets going forward", said Steve Metlitzky, Wavenet's CEO.

"This year is going to be very exciting as we bring a number of new wireless products to market. We are very focused on moving up the value chain and leveraging our solid modem business and great technical team to begin providing higher value wireless solutions to our customers", said Mr Metlitzky.
